Also known as steel drums these instruments play a large part of the Caribbean music culture. Slaves in the late 1700's created their own celebration called Canboulay after they could not take part in Carnival. Steelpans are now a popular section of the Canboulay music contest. Join Kevin for this hands-on music lesson.

Panama Canal Fun

The average sea level for the Atlantic and Pacific entrance is virtually the same. But since the tidal variation at the Pacific entrance can be up to 18 feet, a sea level canal would be faced with the problem of a current running northbound when the Pacific tide was high and a current running south bound when the tide was low.

Did You Know?

Holland America Line created a training course that has been recognized by the National Oceanic and Atmospheric Administration (NOAA) that is now used by vessel operators around the world to help identify different whale species and predict their behavior to help avoid physical contact.
